

Standard  
label templates  
**CATALOGUE**

**OCTOBER**  
**2020**

This catalogue shows standard label models only (including those for plant passports).

For each label template some rules must be respected such as:

- Layout  
*(number of lines, positioning of lines and various elements of the label)*
- Presence or absence of barcode  
*(location, size)*

Examples of labels show each proposed template to help you make your choice according to the elements you wish to communicate on the label.

**When ordering, please specify the template number of the chosen label**

If none of these models meet your needs, please contact our sales teams to create a quote.

Our teams remain at your entire disposal to assist you and facilitate your labelling orders.

## PRODUCTS LABELLING

Anticipating and accompanying the evolution of consumer habits has become key. Today, the container is no longer just a growing support, it is a way to create value and stimulate the act of purchase.

Many labelling options are available to communicate towards your customers.

Simple black printing on white label or CMYK customized label printing, we adapt our labelling solutions to your needs. We are able to label all of our container ranges (injected pots or thermoformed pots) according to your needs (template, visuals, bar-code, QR code, logo, etc.).

Minimum order quantity per pot size: 20,000pcs (per graphic file)

- Waterproof and UV resistant label
- Several standard plant passport models
- Black or coloured printing on a white background

For any specific label request, please contact us.
